DETAILED ACTION

Drawings

1. The drawings are objected to because (1) The perforated lines 86 throughout the drawings are incorrectly shown as solid cut lines. Lines 86 should be shown the same as the other perforated lines, e.g. 50, 64. (2) Figs. 10 and 15 are objected to insofar as the tab 82 has been omitted from these figures. (3) Figs. 1-3, 9-18 and 21 are objected to insofar as they include explanatory indicia, e.g. top, front, etc. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

2. The disclosure is objected to because of the following informalities: on page 4, line 19, "(Figs. 15)" is queried.

Application/Control Number: 10/622,925

Art Unit: 3727

Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 4. Claim 15 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Thresher et al (fig. 20 embodiment).

Allowable Subject Matter

5. Claims 1-14 are allowed.
